

LIHIT LAB.

A ring notebook that allows you to carry only the page you need, similar to a loose-leaf notebook.

OPEN RING NOTE

オープンリングノート

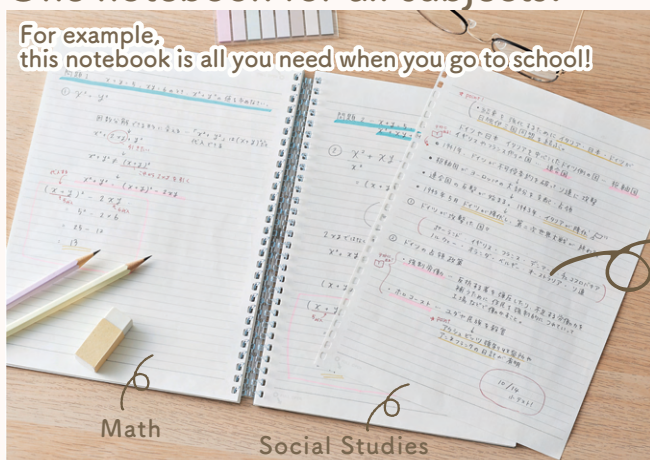

The ring is smaller than the ring of the binder, which makes it convenient to carry around.

Even though it is a ring notebook, the binding opens and can be used like a loose-leaf binder.

POINT1

One notebook for all subjects!

For example, this notebook is all you need when you go to school!

Write down all subjects in one Open Ring Notebook!

At home, classify and organize the pages.

Transparent Cover

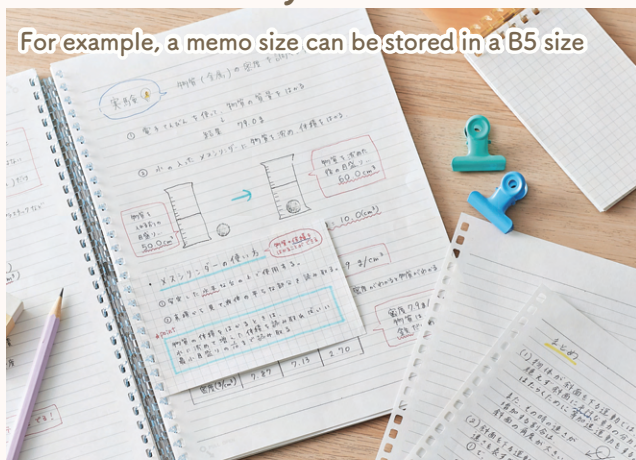

You can sort and categorize them into separate open ring notebooks for each subject at your convenience.

POINT2

Pages of different sizes can be combined freely

For example, a memo size can be stored in a B5 size

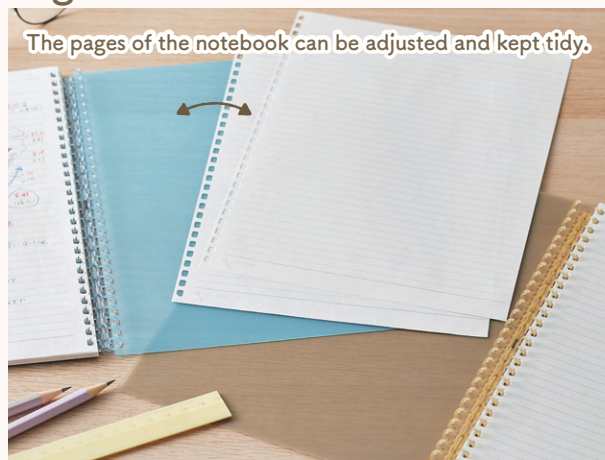

By closing a memo-sized leaf with important points and formulas in a B5 notebook, you can review the contents of your notes.

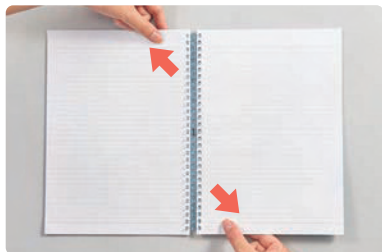

POINT3

Pages can be added or removed.

The pages of the notebook can be adjusted and kept tidy.

If there are extra or missing pages at the end of each semester or class content, the pages can be adjusted.

When Opening

Open the page on which you want to insert or replace a loose leaf, hold the leaf and pull diagonally to open the binding.

When Closing

Pinch and slide down the ring while you hear clicking sound of closing.

It can be folded back 360 degrees for space-saving and easy use.

The blind embossing blend seamlessly with any items.

Transparent gray ring match with the covers color.

Material: PP(thickness:0.5mm),Ring / PC, Loose leaf / High-quality paper
